BASEBALL

Thirty-two schools played baseball during the 2003 season. There were five district tournaments. District champions plus three wild card teams (Millard West, Omaha Creighton Prep and Millard North) played in the state tournament.

The State Baseball Tournament was played May 20-21-22-23 in Omaha and Bellevue after rain forced the postponement of games on May 19. The state tournament used a double-elimination format for the fifth year. Seymour Smith Field and Roddy Field hosted games the first two days of the tournament. Seymour Smith was used for games on May 22. Friday's championship final game was played at Rosenblatt Stadium. NSAA Assistant Director Jim Angele served as the tournament director. Site directors were Dr. Peg Naylor, Omaha Public Schools; Steve Eubanks, Omaha North-west; Charles Rush, Omaha South and Mike Purdy, Bellevue East. Paid Attendance: 5,307.

Girls Track and Field State Records

The Nebraska School Activities Association maintains two sets of state records-(1) State Records (St) for any performance during the entire track season, including the state meet, and (2) State Meet Record (SM) for performances during the state track meet only. Each school is responsible for submitting applications for state records achieved prior to the state meet. Basic requirements for state record consideration:

1. Track event must be conducted at metric distances.
 2. Performances will be considered only from meets involving five or more schools being run according to National Federation/NSAA rules.
 3. Performances must be certified on an NSAA record application form.
- List also includes previous year's gold medal winner.

Track and Field District Performances

(These performances can be set at NSAA district competition, without regard to wind velocity or usual record verification, and are called best performances (although most people call them records). If these performances are to be submitted by schools for NSAA **state** record consideration, they must meet the state records standards, i.e. wind gauge on short races and other specifications listed in NSAA Track and Field Manual. Preference will be given to fully automatic times.)
