Cross Country

2018

Manual
**NSAA MISSION STATEMENT**

The public and non-public high schools of Nebraska voluntarily agreed to form the Nebraska School Activities Association for the following purposes:

- To formulate and make policies which will cultivate high ideals of citizenship, fair competition, sportsmanship and teamwork which will complement the member schools' curriculum programs.
- To foster uniformity of standards in interscholastic activity competition
- To organize, develop, direct and regulate an interscholastic activity program which is equitable and will protect and promote the health and physical welfare of all participants.

This CROSS COUNTRY MANUAL has been prepared and designed to provide general information for use in the administration of NSAA Cross Country competition. It will serve as a guide to the participating schools and will provide for greater consistency between matches. The regulations in this manual shall be considered official unless the schools are notified of a change. All coaches and athletic directors are urged to read the instructions in this manual thoroughly and save it for future reference.

Assistant Director, Ron Higdon, is the NSAA staff member responsible for administering Cross Country and is the contact person for schools with questions regarding this activity. He can be reached at rhigdon@nsaahome.org or Administrative Assistant, Ronda Schmidt, rschmidt@nsaahome.org.

**Internet Information**

The Nebraska School Activities Association’s home page on the Internet is: [http://www.nsaahome.org](http://www.nsaahome.org).

The NSAA website includes a sub-page for each of the NSAA’s sponsored activities. Administrators, coaches and others involved in this activity should familiarize themselves with this website and the school login page, as the NSAA uses it extensively to distribute information.

Current year classifications, rule changes and interpretations, district assignments, district entry form, state meet schedule, state meet qualifiers and assignments, state meet results and lists of past champions are some of the available information on the NSAA website.

The NSAA office and its staff members can be reached via the following email addresses: rhigdon@nsaahome.org – Ron Higdon / Cross Country inquiries; nsaa@nsaahome.org – NSAA office.

It is imperative that you to check the NSAA home pages where your activity is involved.

2018-NEW FOR THIS YEAR

APPROVED RULING 2.1.2 (Medical Personnel at Regular Season Games)
Severe injuries, sudden illnesses and other critical incidents do not often occur during school activities, but it is important for every school to have an emergency action plan (EAP) for administrators, faculty, coaches and staff members to follow should emergencies occur. Due to lack of universal availability of medical coverage and other logistical reasons, NSAA does not require that schools have a physician, trainer or ambulance on-site at regular season activities; however, each school should have a plan in place should there be an emergency involving athletes, coaches, officials or spectators requiring medical attention.

3.12 OFFICIALS—Appendix 4--NSAA POLICY ON COMMENTS AND NEGATIVE ACTIONS AGAINST OFFICIALS AND JUDGES
The National Federation of State High School Associations has devised Code of Ethics guidelines for high school coaches. The function of a coach is to educate students through participation in interscholastic competition. The coach or sponsor shall respect and support contest officials and judges. The coach or sponsor shall not indulge in conduct that would incite players or spectators against the officials. Public criticism of officials, judges or players is unethical. The Nebraska School Activities Association has embraced that Coaches Code of Ethics and has established policies and standards that will cultivate the ideals of good sportsmanship, professionalism and conduct. It shall be the responsibility of each member school to ensure that all individuals directly associated with the interscholastic program conduct themselves in a sportsmanlike and professional manner.

The high school coach or director is a representative of the school at interscholastic activity events. It is the responsibility of all coaches and directors to serve as role models for students and the public. It is the expectation that all coaches, directors, administrators and student participants shall refrain from negative criticism of NSAA member institutions, officials, adjudicators, judges, etc. in public statements before, during or after interscholastic events. The appropriate public response to media questions at all venues regarding officiating/judging is “per NSAA policy, I am unable to comment.” Any other response is a violation of this board policy and is subject to penalty.

It would be considered a violation of this NSAA policy to include, but are not limited to the following:
- Making degrading and/or critical remarks about officials or adjudicators or the officiating or judging before, during or after an event either on or off-site, via social media, or through any public means.
- Detaining the officials/adjudicators/judges during or following the event to request a ruling or explanation of actions or evaluation by the official(s)/adjudicator(s)/judges.
- Entering the officials dressing area following the contest.

Negative actions by an individual directly associated with the program shall be reported to the NSAA office by the school and/or by the head contest official, adjudicator, judge, or manager. The school shall document the results of their investigation and actions taken, where necessary and appropriate. The NSAA Executive Director shall determine the appropriate penalties for violation of this board policy.

Expected Behaviors at Awards Ceremonies

Education-based activities give students the ability to train, participate and compete in a structured setting. With that, students often learn lessons that are sometimes not taught in the traditional academic classroom. Some of those lessons includes learning to win and lose with dignity and grace. As such, the following guidelines have been developed for awards ceremonies at the conclusion of sub-district, district and state contests.

Only one team can win a district or state championship, yet the NSAA provides trophies, plaques and medals to the losing teams in many of the postseason activities. It shall be the expectation that both team shall accept their medals and trophies in a sporting and willing manner. Some losing teams have been reluctant to step forward and accept their awards, and coaches and administrators need to assure sporting behaviors for their student athletes. It is natural to be disappointed in losing the contest, but stepping
forward at this time of disappointment is a life lesson that helps mold proper and sporting behaviors. It is the expectation!

The executive director or the NSAA Board of Directors shall determine the type and severity of sanctions to schools that do not comply with these expectations.

**NFHS RULES CHANGES & RATIONALE**

**RULE 4-SECTION 3 COMPETITOR’S UNIFORM** (2018 NFHS Rules Book)

**ART. 1**...The competitor’s uniform shall be school-issued or school-approved, worn as intended by the manufacturer, and meet the following requirements and restrictions:

a. Each competitor shall wear shoes on both feet.
   1. The shoes shall have an upper and definitely recognizable sole and heel.
   2. The (shoe) upper must be designed so that it can be fastened securely to the foot.
   3. In cross country, the sole and heel may contain grooves, ridges or track spikes which are no longer than 1 inch.
   4. The use of slippers or socks does not meet the requirements of the rule.

**NSAA and NFHS Statement on Steroids**

The Nebraska School Activities Association (NSAA) and the National Federation of State High School Associations (NFHS), strongly oppose the abuse of anabolic steroids and other performance-enhancing substances by high school student-athletes. Such use violates legal, ethical and competitive equity standards, and imposes unreasonable long-term health risks.

The NSAA and the NFHS support prohibitions by educational institutions, amateur and professional organizations and governmental regulators on the use of anabolic steroids and other controlled substances, except as specifically prescribed by physicians for therapeutic purposes.

**Music Licenses**

Generally, music used for contests (warm-up, half-time, “walk-up” music, etc.) needs to be licensed. Some music may be in public domain; however, most music is not and will require a license. This season, take the necessary time to verify your music is licensed through the proper entities. Visit www.nfhslearn.com for additional resources.

Approved Rulings and Interpretations for 2.12

2.12.3 Coaches’ Aides--Schools may contract non-certificated personnel to assist with their activities programs, but such personnel shall be coaches’ aides.
1. The individuals must have a job description.
2. The individual shall not initiate nor change instruction given by the head coach and must carry out specific directions given by the head coach.
3. The individual may assist in starting, executing, and completing the specific plan of the learning experience as defined and directed by the head coach.
4. The aide should be specifically prepared for duties assigned, to include the handling of emergency situations that arise in the course of his/her work.
5. Coaches’ aides are not to be given the sole responsibility of directing or supervising students during practice. The head coach should be in the immediate practice area.
6. When traveling to and from and participating in interschool competition, the team or individuals are to be accompanied by the head coach/sponsor, assistant coach/sponsor, or in case of an emergency, a certificated faculty member.

All coaches and volunteers are required to complete the following courses:

NFHS Concussion in Sports
NFHS Heat Illness & Prevention
NFHS Sudden Cardiac Arrest

These Courses can be found on the NSAA homepage at nsaahome.org under the Sports Medicine tab and Online Courses tab. These courses should be taken prior to any pre-season or regular season physical workouts that the respective coach would be present for or involved in administering. Any course taken after May 1 would be considered valid for the following school year.
NSAA ATHLETIC BYLAWS AND APPROVED RULINGS

2018 National Federation of State High School Associations (NFHS) Track and Field and Cross Country Rules and 2018-19 Nebraska School Activities Association (NSAA) rules and regulations shall govern all Cross Country competitions.

2.1.4--Certificate of Eligibility. Prior to the first date permitted for interschool competition in each activity, each member school shall submit an on-line list of all students participating and eligible to participate in each activity.

Approved Rulings and Interpretations for Section 2.1.4

1. A team may refuse to engage in the contest if the participation/eligibility entries have not been entered into the NSAA on-line database.
2. A non-public school and public school, or two or more public schools or two or more non-public schools, cannot combine their members to make up one team to play scheduled contests, unless they have followed the rules of cooperative sponsorship.
3. The participation list is required for ALL participants in the activity. Only those participants marked as being eligible at their member school may participate in varsity contests.
4. All schools shall enter the student participation and eligibility lists on-line into the NSAA’s secured database prior to the first date permitted for interschool competition in each activity.
5. Students who are ineligible for varsity participation due to transfer or eligibility rule non-compliance may participate at the non-varsity level; however, such students would be ineligible to participate if their non-varsity team is competing against another school’s varsity team.

2.1.4.1--In case an addition is made to the list during the season of that activity, the school shall notify the NSAA office before using the added student in competition.
2.1.4.2--Schools shall certify that students who become ineligible for any contest because of failure to comply with any Association eligibility rule will not be allowed to participate.

90-school Day Ineligibility Interpretation–When counting ninety-school days, a school day is defined as a student contracted regular school day, Monday-Friday, in which there is the opportunity for instruction. After the ninety school day ineligibility period has been completed, the student would be eligible. When school is cancelled for reasons beyond the control of the student, i.e. Inclement weather, facility malfunctions that prevent school from being held, those day(s) would be counted toward the ninety school days. Summer school is excluded in the count.

3.1 SPORTS SEASONS

3.1.1--Interschool sports sponsored by the Association shall be divided into three seasons: Fall, Winter, and Spring.

Approved Rulings and Interpretations for 3.1.1

1. A season begins on the first day of allowable practices for that sport, as designated in 3.1.1.2. The season officially ends with the conclusion of the State Championship in that sport. Students may not participate in outside group instruction or competition once the season officially begins, and outside group instruction or competition may not commence until the school varsity team has been completely eliminated from further participation in that sport.
2. All scheduled and postponed regular season varsity contests must be played prior to the start of sub-district, district or state competition. Once sub-district, district or state competition begins, no regular varsity contests shall be permitted.
3. Students who are not listed on the NSAA District entry form may participate in outside group instruction or competition of the same sport before the varsity school team has been completely eliminated from post-season competition. Those students who have participated in outside group instruction or competition following their regular season schedule would not be eligible to be placed on the district or state entry form of the same sport and would not be allowed to practice with the varsity team.

3.1.1.1--A season begins the day of opening practice as permitted by the NSAA rules rather than the first day of interscholastic competition.
3.1.1.2—The division of sports seasons shall be as follows: No school shall register more than one varsity team per sport and no student shall participate simultaneously in more than one sport per season. Note: Week designations are for the standardized calendar. The standardized calendar usually begins with the first full week in July.

3.2.3—Organized practice. No organized practice in any sport shall be held during the “school-year, out-of-season” period. An organized practice shall be defined as: “more than three students under direct supervision of a sponsor. If more than one such group is practicing at the same time, it shall be called an organized practice.”

c. Track & Field, Golf and Cross Country. An organized practice shall mean more than three students under direct supervision of a sponsor. If more than one such group is practicing at the same time, it shall be called an organized practice.

3.2.7—Summer Activities. From the Tuesday following Memorial Day to July 31, a member school may not sponsor a team or individual, provide uniforms, individual player equipment (except football, baseball, and softball protective equipment for commercial camps), or otherwise be responsible for a student in summer competition. Attendance at summer activities shall be voluntary. No coach or school representative may directly or by implication direct a student to attend summer activities as a condition for membership on a high school team or restrict the level of team participation within the high school program.

3.2.7.3—Conditioning Program. A member school may organize and supervise a summer conditioning program to include weight lifting, running, and exercising for its students in accordance with the following provision:

a. Such a conditioning program shall be general in nature and may include only exercises designed to promote physical fitness.

b. Sport specific drills are not allowed, and sport specific equipment may not be used.

c. Conditioning sessions shall be no longer than 60 minutes in length, and no member shall participate in more than one such session per day.

Conditioning sessions organized and run by members of the school’s coaching staff are subject to the 60-minute limitation. Students, for example, who work out on their own at the school facility in weight lifting, general calisthenics, running, or agility-type exercises shall not be considered to be involved in an organized conditioning program.

3.2.7.8—Summertime Use of School Facilities. Member schools may permit the use of their facilities in accordance with the local school board rental policy.

Non-High School Participation

3.5 Participation on Non-High School Teams and in Non-High School Competition

3.5.1—Any student who participates in any athletic contest other than as a representative of his/her high school during the season of the sport involved becomes ineligible to represent his/her school in that sport for one or more contests or the remainder of the season.

3.5.2—Individual Instruction. During a season of a sport, a student is permitted to take individual instruction from a person other than the high school coach at times other than scheduled high school practice sessions, but such instruction shall not interfere with, nor be substituted for the high school coaching, practice sessions, or contest.

Approved Ruling for 3.5.2

During a season of a sport, a student is permitted to take individual instruction from a person other than the high school coach. Group instruction, practices with outside teams, and tryouts for outside teams other than as part of a college or university recruiting visit, however, are not permitted.

3.2.7.1—Allowable Summer Activities. During the summer a member school may organize the following:

3.2.7.2—Summertime School-Sponsored Camps/Clinics. A school may organize a camp or clinic in any sport from the Tuesday following Memorial Day through July 31. The camp shall be limited to no more than ten days over a period of 21 consecutive calendar days starting with the first date of the camp/clinic.

a. Summertime school-sponsored camps/clinics include planned physical activities that are instructional and competitive in nature where actual games can be played or simulated by camp attendees.
b. Summertime school-sponsored camps/clinics shall be voluntary and open to all interested students from grades 9-12.
c. The use of school facilities and equipment is permitted in accordance with local school board policy.

**ADDITIONAL NSAA RULES**

**Headwear:** The wearing of decorative headwear/caps while competing is prohibited.

**GPS Watches:** Watches with GPS capabilities are illegal and shall not be worn.

**Cross Country--10-14 Day Heat-Acclimatization Period**

1. Days 1 through 5 of the heat-acclimatization period consist of the first 5 days of formal practice. During this time, athletes may not participate in more than 1 practice per day.
2. If a practice is interrupted by inclement weather or heat restrictions, the practice should recommence once conditions are deemed safe. Total practice time should not exceed 3 hours in any 1 day.
3. Beginning no earlier than day 6 and continuing through day 14, double-practice days must be followed by a single-practice day. When a double-practice day is followed by a rest day, another double-practice day is permitted after the rest day.
4. On a double-practice day, neither practice should exceed 3 hours in duration, and student-athletes should not participate in more than 5 total hours of practice. Warm-up, stretching, cool-down, walk-through, conditioning, and weight-room activities are included as part of the practice time. The 2 practices should be separated by at least 3 continuous hours in a cool environment.
5. Because the risk of exertional heat illnesses during the preseason heat-acclimatization period is high, we strongly recommend that an athletic trainer be on site before, during, and after all practices.

**NOTES:**

1. Consideration should also be taken for any practices conducted in hot and humid weather in non-air cooled facilities.
2. Consult the Heat Index Chart, [www.nsaahome.org](http://www.nsaahome.org), Sports Medicine Page

Classification

2018 NSAA Classifications for Cross Country are listed on the NSAA web site, http://nsaahome.org/ under Cross Country. Boys and girls Cross Country shall be divided into four classes for competition as follows:

1. Based on combined boy and girl enrollment, grades 9-11.
2. The 28 largest schools registered for cross country, shall be Class A (28-boys, 28-girls).
3. The next 32 largest schools registered for cross country shall be Class B.
4. The next 44 largest schools registered for cross country shall be Class C.
5. The remaining schools registered for cross country shall be Class D.
6. Boys and girls teams from the same school will be placed in the same class. (Exception: cooperatives)
7. If schools are tied in enrollment for the last position or positions of a class, the following tie-breaker will be applied:
   a. The first tie-breaker will be a three-year average of enrollment which includes the year on which the current year’s classification is based and the two previous years. The higher three-year average will be in the larger class.
   b. If the tie still exists, then the school with the higher immediate previous year’s enrollment will be placed in the larger class.
   c. If a tie still exists, it will be decided by a coin flip in the NSAA office.
8. Schools have the opportunity to petition up a class in Cross Country. No replacement is made in that class vacated (no team will move up to fill that void).

District Assignments

1. Schools registered for cross country by July 1 will be assigned to a district.
2. Classes A, B and C will have four districts and Class D will have six districts.
3. Class A schools are the 28 largest boys and 28 largest girls schools registered for cross country and are assigned to four, seven-team districts, using the average of each team’s two fastest times. Total times will be only accepted from varsity races at meets with at least five teams. The course must be at least 5,000 meters. Coaches submitting team times from Nebraska high school hosted meets for the seeding process may only submit times from courses that have been measured to be at least 5,000m utilizing the shortest possible route standard as defined by USATF certification standards. Courses need only be measured once per year prior to any meet being hosted at the site unless route changes have been made to a course, then an additional measurement shall be required along the new route used. Meets hosted by non-Nebraska high schools like universities or colleges shall be deemed at least 5,000m unless otherwise stated. The NSAA website will provide a link on the NSAA Cross Country website showing how to correctly measure a course using the “shortest possible route” standards of USATF.

Monday of NSAA Week 13 is the last day of competition that times may be accepted. Class A coaches must submit their times by Tuesday at 11:59 pm of NSAA Week 13. Teams missing this deadline will be seeded by the NSAA at their discretion. Class A schools will need to submit a request to host to the NSAA. The NSAA will select two sites after districts have been assigned the Wednesday of Week 13. Site A will host two districts and site B will host two districts.

4. **IN EVEN YEARS**—
   a. the girls will be placed in four districts using the serpentine method based on the girls’ total time rankings.
   b. boys’ district assignments will be based on a modified serpentine of the boys’ total time rankings using the girls’ district assignments to make sure that boys and girls teams are at the same site but not necessarily the same district.
   c. the NSAA will pair district sites within the serpentine process.
   d. all district scenarios will be created (ex. 1&2 3&4, or 1&3 2&4, or 1&4 2&3) and the scenario that most equally distributes the top 12 seeds among the four districts will be used.
   e. if multiple scenarios are equal in this distribution, then other factors like host sites and/or travel may be considered in the district selection process.
5. **IN ODD YEARS**—the process shall be repeated but boys and girls shall be flipped in the districting process.

**Classes B, C, and D.**

1. Schools are assigned to a district according to the school’s geographical location. Available sites and facilities are also considered. Beginning with the school located the farthest west; schools to the east are added until the pre-determined number of schools, which are to compose a district, is reached. Schools located to the north and south may be selected if total travel distance to a tournament site can be decreased. This sequence continues until all schools are assigned to districts.

2. If a school(s) decides to participate in an activity after district assignments are completed, the school(s) will be assigned to a district with the fewest number of schools unless the travel distance is too great. If the travel distance is too great, the school(s) will be assigned to the nearest district and the other district assignments may be adjusted.

3. Class D districts will be established after September 1st when Cross Country registration has been completed. Schools will be assigned to six districts.

**Team Entries**

1. NSAA Entry forms are accessed and submitted online. The Athletic/Activities director will give the certified coach the login for this activity. Go to the NSAA web site (www.nsaahome.org) and click on “School Login”. Enter your login and go to “View/Edit your Form” to complete your entry form (detailed instructions can be obtained from the website). You may make changes to this form up until the due date. After that, you will need to contact the NSAA and your District Director.

2. Entry deadline is October 1.

3. Class A—List no more than seven entries (no alternates). Classes B, C, and D—List no more than six entries (no alternates).

**Media-Student Media, Media Credentials & Broadcasting**

1. All media operations (admission, access and accommodations) for Regular Season contests are at the Host School’s discretion.

An exception to this policy, in writing, may be made in specific cases for NSAA broadcast partners, provided the management of the tournament facility permits the presence of UAVs for broadcast purposes under the control of the NSAA. (added 6/2015)
