After much discussion, the committee decided to submit a legislative proposal to classify softball, volleyball, girls and boys basketball, wrestling, girls and boys golf, girls and boys tennis, girls and boys soccer, and baseball using gender specific enrollment counts.

The committee also discussed the number of classes in each sport and activity, in addition to classifying all sports and activities every two years. The consensus of the committee was to leave the number of classes the same and to continue to classify all sports and activities, with the exception of football, on a yearly basis.

The committee determined that further study would need to be done on of the number of schools in each class for wrestling and track and field in as it relates to the enrollment ranges and ratios.

With no further business, the committee adjourned at 2:55 p.m.
