 7. A team's point average will be determined by dividing the total number of points by the number of eligible duals wrestled.
 8. If a tie exists for the eighth qualifying spot, the following procedure will be used to select the qualifying team or teams.
 - a. If teams have identical point averages and are tied for one of the qualifying spots and the teams have all wrestled each other, the team that can be separated based off head-to-head competition will be selected.
In the case where teams meet multiple times the higher winning percentage against each other will determine the head-to-head winner.
 - b. If all the teams tied have not wrestled each other step "c" thru "f" will be used to determine which team qualifies for the NSAA Dual State Championships. Once one team breaks the tie and is awarded the qualifying spot then go back to step "a" and start over.
 - c. The team's opponents' wins and losses from all eligible duals will be totaled and the winning percentages calculated. The team whose opponents have the highest winning percentage based on this calculation will be chosen.
 - d. The team with the lowest average number of forfeits per dual will be chosen. The average number of forfeits will be determined by the total number of forfeits in all eligible duals divided by the total number of eligible duals.
 - e. The team with the highest average team points in all eligible duals.
 - f. If a tie still exists, the qualifier will be decided by a coin flip in the NSAA office.
